THE STEPPING UP INITIATIVE

Region 6 Behavioral Healthcare

Sarpy County Nebraska

Utilizing Data-Driven Strategic Approaches to Reduce the Number of People with Serious Mental Illness in Jail

Sarpy County, Nebraska

QUARTERLY REPORT

Data from Quarter 3 of SFY 2021

Meeting Date: April 22, 2021

Stepping Up Agenda

1. Welcome
2. Wellness Court Update -A. Berg
3. Open Lattice Update-R. Hillabrand
4. Data Discussion
5. Other
6. Next Quarterly Meeting July 22 @1:30
   Not Scheduled (zoom or in person)
7. Conclude

Sequential Intercept Model (SIM) Priorities for Change

County Priorities:
1. Plan for a specialized law enforcement response to individuals experiencing a mental health crisis.
2. Explore developing a Crisis Stabilization Center to provide law enforcement and the community with a single point of contact to access mental health services for individuals in crisis, providing an alternative to jail and/or Emergency Departments.
3. Explore building a new jail to expand capacity.

CJ-BH Collaborative Team Priorities:
1. Create a Data Analyst position
2. Implement Familiar Faces Project
3. Enhance Re-entry Planning Efforts; in-reach and warm transitions

Sequential Intercept Model (SIM) PRIORITIES FOR CHANGE (August 2018):
1. Creation of a crisis stabilization center located within and utilized by Sarpy County law enforcement agencies accompanied by a single point of entry phone line/triage service.
2. Transportation
3. Implement utilization of virtual/telehealth crisis response services for jail staff and law enforcement officers in the field.
4. Utilization of mobile crisis response staff as a resource to provide assessment to hospital in Sarpy County.
5. Provide sufficient medications to person at the point of reentry from the jail to the community, as well as access to medication management and follow-up service in the community in a timely manner.
6. Improve data collection and data sharing to identify familiar faces for improved outcomes.
7. Expand space in the jail for needed programming and services.
8. Utilize data as a tool to access needed funding for services, treatment, and support.
9. Expand and increase in-reach services and programs to provide services in the jail at Intercept 3.
10. Create a systematic assessment of an individual's social determinants of health prior to reentry, inclusive of familiar and social supports, housing, transportation, income.

Stepping Up Key Measures

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail	**GOAL 2:** Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Numerator: the number of adults booked into the jail with a diagnosed SMI during the month

Denominator: the average daily total population of the jail for the month

Data Source: Sarpy County Jail
Date Provided: Monthly
Review Frequency: Monthly
Notes: Data through April 2019 reflects individuals with an MH disorder. Data from May 2019 to current reflect individuals with SMI

Numerator: the monthly average LOS for those *discharged* from jail with a SMI

Denominator: the average daily total population of the jail for the month

Data Source: Sarpy County Jail
Date Provided: Monthly
Review Frequency: Monthly
Notes: July 2018 – March 2019 used Mental Health Disorder: April 2019 definition changed to SMI

GOAL 3: Increase the Percentage of Connection to Care for People with a Serious Mental Illness (SMI) in Jail

GOAL 4: Lower the Rates of Recidivism for Individuals with a Serious Mental Illness (SMI) in Jail

Numerator: the number of Type 1 and Type 2 Connections to Care made during an individual's stay in jail - reported during the month they were released from jail

Denominator: number of all people with a SMI discharged from jail that month

Data Source: Public Defender's Office, Department of Corrections
Date Provided: Monthly
Review Frequency: Monthly
Notes: Data through April 2019 reflects individuals with an MH disorder. Data from May 2019 to current reflect individuals with SMI

Numerator: Number of repeat bookings (regardless of reason for booking)

Denominator: Total number of bookings

Data Source: Sarpy County Jail
Date Provided: Monthly
Review Frequency: Monthly
Notes: Will be compared for the SMI population and non-SMI populations

Stepping Up Key Measures

Definitions

- **SMI (Serious Mental Illness):** Individuals who self-report with (i) Schizophrenia, (ii) Schizoaffective Disorder, (iii) Delusional Disorder, (iv) Bipolar Affective Disorder, (v) Major Depression, and (vi) Obsessive Compulsive Disorder
- **Connection to Care/Service Type 1:** Information & Referral; defined as any one of the following:
  - Verbal or written information is shared about a service or program with the client
  - Written contact information about a service or program is shared with the client
- **Connection to Care/Service Type 2:** Linking to Service; defined as any one of the following:
  - Verbal or written communication is received confirming that the client and the agency have been connected
  - Verbal or written communication is received confirming that the client has an appointment
  - The client is aware of the agency and the agency is aware of the client's need for service.
- **Long Acting Injectable (LAI):** LAI antipsychotics are a pharmacologic strategy for treating patients with schizophrenia who relapse due to nonadherence to antipsychotic medication
- **Recidivism –** Refers to a person's relapse into criminal behavior and is measured by criminal acts that result in being "re-booked" into jail within the 12 months of the person's last release date.
- **Mental Health First Aid (MHFA):** is an 8-hour public education training that introduces participants to risk factors and warning signs of mental health problems, builds understanding of the impact, and provides an overview of common treatments. Recertification is required every 3 years.
- **Crisis Intervention Training (CIT):** The Memphis Crisis Intervention Team (CIT) is innovative police based first responder program that has become nationally known as the "Memphis Model" of pre-arrest jail diversion for those in a mental illness crisis. This program provides law enforcement-based crisis intervention training for helping those individuals with mental illness. Involvement in CIT is voluntary and based in the patrol division of the police department. In addition, CIT works in partnership with those in mental health care to provide a system of services that is friendly to the individuals with mental illness, family members, and the police officers.
- **Medication-Assisted Treatment (MAT**): is the use of medications with counseling and behavioral therapies to treat substance use disorders and prevent opioid overdoes.

Data Applications Used:

P1-CAD – This system dispatches Law & Fire agencies of Sarpy County.

LRMS – Law Records Management System for the Law agencies of Sarpy County.

ProPhoenix RMS – This will be replacing LRMS for the Law agencies of Sarpy County.

IMACS – Jail booking software used at the Sarpy County Jail.

MH – System used to help track MH type customers.

Stepping Up Key Measures

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail

Percentage of Average Daily Population with a
Serious Mental Illness (SMI)

	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021
	22%	21%	20%	22%	24%	25%	21%	21%	24%	21%	20%	20%

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental

Avg. Length of Stay for General Population vs.
Avg. LOS with SMI (in days)

	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021
SMI	88	65	136	213	77	108	57	117	55	204	87	43
General	21	16	15	22	16	11	15	13	17	13	17	10

GOAL 3: Increase the Percentage of Connection to Care for People with a Serious Mental Illness (SMI) in Jail

Percentage of Service Type Provided:
Information & Referral (Type 1)
& Linking to Service (Type 2)

	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	2020 Total	Jan 2021	Feb 2021	Mar 2021
Type 1	0%	11%	0%	0%	0%	0%	7%	10%	75%	7%	17%	63%	50%
Type 2	67%	11%	57%	43%	40%	9%	33%	20%	0%	27%	83%	13%	75%

GOAL 4: Lower the Rates of Recidivism for Individuals with a Serious Mental Illness (SMI) in Jail

Percentage of Repeat Bookings: SMI & Non-SMI

|	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021
SMI	48.4%	45.6%	22.6%	37.7%	48.1%	61.7%	45.9%	37.9%	37.3%	31.6%	22.5%	42.9%
Non-SMI	14.8%	14.0%	13.7%	13.5%	15.9%	12.2%	13.0%	15.7%	12.8%	12.1%	12.6%	15.4%

"Set, Measure, Achieve" – Targeted Reduction Measures

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail by 10%.

SMI Booking into Jail by Month & 2020 Target

GOAL 2: Shorten the Average Length of Stay (ALOS) for People with a Serious Mental Illness (SMI) in Jail by 5%.
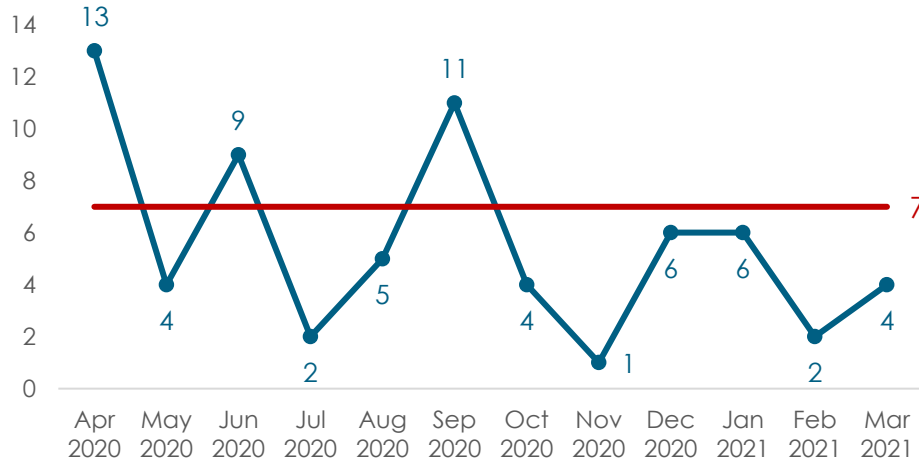

Avg. Length of Stay for General Population vs. Avg. LOS with SMI (in days) & Target

GOAL 3: Increase the Percentage of Connection to Care for People with a Serious Mental Illness (SMI) in Jail by 10%.

Percentage of Service Type Provided:
Information & Referral (Type 1) & Target
vs. Linking to Service (Type 2) & Target

GOAL 4: Lower the Rates of Recidivism for Individuals with a Serious Mental Illness (SMI) in Jail by 5%

Percentage of Repeat Bookings: SMI & Target

Stepping Up Key Measures   SET MEASURE ACHIEVE

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail by 10% Annually	**GOAL 2:** Shorten the ALOS for People with a Serious Mental Illness (SMI) in Jail by 5% (Annually)
Measure: The number of individuals with an SMI booked into jail each month (Self-Report)	**Numerator**: The monthly ALOS for those *discharged* from jail with a SMI
	Denominator: The average daily total population of the jail for the month
Data Source: Sarpy County Jail **Date Provided:** Monthly **Review Frequency:** Monthly **Notes:** 8-month average for 2019 was 7.75 SMI bookings per month. A 10% reduction would be 7 bookings per month (2 less each month)	**Data Source:** Sarpy County Jail **Date Provided:** Monthly **Review Frequency:** Monthly **Notes:** 2019 had 111.5 days ALOS for SMI. A 5% reduction is 105.9 days
GOAL 3: Increase the Percentage of Connection to Care for People with a Serious Mental Illness (SMI) in Jail by 10%	**GOAL 4:** Lower the Rates of Recidivism for Individuals with a Serious Mental Illness (SMI) in Jail by 5% Annually
Numerator: The number of individuals with a SMI who are represented by the Public Defender's Office who experience an intake into jail that month who are linked to a service via Type 1 or 2	**Numerator**: The number of repeat bookings (regardless of reason for booking)
Denominator: The number of all people with a SMI who experience intake into jail that month **Of those discharged from jail during the month**	**Denominator**: The total number of bookings
Data Source: Public Defender's Office, Department of Corrections **Date Provided:** Monthly **Review Frequency:** Monthly **Notes:** 2019: Type 1 average was 12%, ten percent increase is 13.2% Type 2 average was 38.4%, ten percent increase is 42.2%	**Data Source:** Sarpy County Jail **Date Provided:** Monthly **Review Frequency:** Monthly **Notes:** 2019 rate was 21.4% for those with an SMI. 5% reduction is 20.3% rate of recidivism (6 less for year, 106 individuals)

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail
      10% Reduction or an Average of 2 Less People Each Month

Objective 1: Each law enforcement agency in Sarpy County will have 100% of sworn officers trained in either CIT, MHFA or both)

Strategy	Target	Notes/updates/completion date
a. Sgt. Hillabrand will share training data with all law enforcement agencies in Sarpy County.	On-Going	CIT training has been postponed until Fall 2020 (post-pandemic); Virtual delivery of CIT started week of Aug 24, 2020.
b. Sgt. Hillabrand and V. Maca will meet with Bellevue interim Chief of Police and review training data.		HOLD COVID-19
c. Sgt. Hillabrand will share Papillion Fire/Rescue training data for inclusion with packet.	On-Going	
d. SCSO will explore having an in-house MHFA trained trainer.	PAUSE	HOLD COVID-19
e. Continue to provide MHFA training at the Sarpy/Douglas County training academy for all new hires.	On-Going	
f. SCSO to host MHFA every Friday (end of June through August).	PAUSE	HOLD COVID-19

Objective 2: 911 Call Center, County Attorney Attorney's Office, Public Defender's Office and Probation will have 100% of identified staff Trained in MHFA.

a. Collect and monitor baseline data; develop strategies as needed.	On-Going	

Objective 4: LE agencies will work toward increasing the number of completed Crisis Intervention Tracking Form on those calls that involve mental health.

|		
a. Rob will continue to engage Sarpy Co LE agencies to increase the number of tracking forms completed.	On-Going	
b. Rob will explore purchasing tablets with grant funds for SCSO to be used to connect with Mobile Crisis Response (ASAP).	June 2020 Completed	6 tablets on every shift, 46 Tablets have been purchased

Objective 5: Monitor the number of individuals with SMI who were booked into jail on a misdemeanor charge, by law enforcement agency.

a. Develop strategies as needed. Explore whether these individuals are unique or duplicated.	April 2021	

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail

Objective 1: Each identified agency in Sarpy County will have 100% of sworn officers or designated staff trained in either CIT, MHFA or both.

Percentage of Officers with CIT & MHFA Training: 2021 Q1

	BPD	LVPD	PPD	SCSO
CIT	18.2%	43.6%	100.0%	42.9%
MHFA	45.5%	100.0%	25.0%	100.0%
Measure:
Number with training / Total Officers

Definitions:
Percentage of officers (by LE Agency) with CIT and MHFA training

Data Source:
Sgt. Hillabrand SCSO

Review Frequency:
Quarterly

Analysis:
All law enforcement agencies have 100% sworn officers trained in either CIT or MHFA with the exception of Bellevue Police Department.
Since last quarter, all percentages have been the same except SCSO =increase in CIT (training up from 41%)
Recertification for MHFA is required every 3 years.
CIT Training dates for 2021:
May 24 – 28, July 19 – 23, Sept. 20 – 24, Nov. 29 thru Dec. 3

** Data impacted by COVID – 19 as training has been suspended.

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail

Objective 2: 911 Call Center, County Attorney Attorney's Office, Public Defender's Office and Probation will have 100% of identified staff trained Trained in MHFA.

Number of Officials with MHFA Training: 2021 Q1
	Measure: Number of staff with MHFA training / total staff
	Definitions: Number of identified staff at each agency with MHFA training
	Data Source: Sgt. Hillabrand SCSO
	Review Frequency: Quarterly

Analysis:
This is point in time data gathered at the end of the period of review.
Recertification for MHFA is required every 3 years.
Diversion: 11/11=100%
PD Non-Attys: 6/7=86%
PD Attys: 11/12=92%

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail

Objective 3: Analyze mobile crisis response utilization data (from HFS) by LE agency to determine 2020 goals.

MCR Assessments by L.E. Agency

Measure: Total MCR interventions by month	
Definitions: Number of MCR interventions by month.	
Data Source: Heartland Family Services Trisha McArthur	
Review Frequency: Quarterly	

Legend: ■ BPD ■ LVPD ■ PPD ■ SCSO ■ Jail

Analysis:
Data includes Face to Face Assessments, Telehealth Assessments, Telephone Consultations, and Cancelled Calls.

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail

Objective 4: LE agencies will work toward increasing the number of completed Crisis Intervention Tracking Form on those calls that involve mental health.

|	Measure:
	Definitions:
	Data Source: Sgt. Hillabrand SCSO
	Review Frequency:
Analysis:	

GOAL 1: Reduce the Number of People with a Serious Mental Illness (SMI) Booked into Jail

Objective 5: Monitor the number of individuals with SMI who were booked into jail on a misdemeanor charge, by law enforcement agency.

Individuals Booked with Misd. and SMI by LE Agency

Legend: ■ SCSO ■ BPD ■ PPD ■ LVPD ■ NSP

Measure:
Number of individuals booked with a misdemeanor each month, organized by Law Enforcement Agency

Definitions:

Data Source:
Jo Martin

Review Frequency:
Quarterly

Analysis:
Is this the same person or are they unique individuals?

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail
Shorten by 5% or 6 Fewer Days in Jail for Each Person

Objective 1: Corrections will work to have 100% of designated staff trained in CIT, MHFA or both.

Strategy	Target	Notes/updates/completion date
a. Team will review data and identify needed strategies.	On-Going	

Objective 2: Collect and analyze Mental Health Diversion data and Mental Health Pre-Trial data in order to establish objectives/strategies.

Strategy	Target	Notes/updates/completion date
a. Vicki will schedule a meeting with MH Pretrial, MH Diversion and Region 6 to discuss data collection. *Continue to collect and report on baseline data; identify opportunities.*	Completed Sept. 2020	

Objective 3: Review communication protocols between system partners re. Competency Evaluations and Restorative Treatment

| Strategy	Target	Notes/updates/completion date
a. Form workgroup to develop a document that identifies actions to improve communication between system partners. Workgroup has been meeting and has a draft document that is in review process.	In-Process	

Objective 4: Collect baseline data on number of days individuals are in jail waiting to go to LRC for restorative treatment.

Strategy	Target	Notes/updates/completion date
a. Review baseline data and identify opportunities. Utilize best practices from SAMHSA GAINS Center technical assistance.	On-going	

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 1: Corrections will work to have 100% of designated staff trained in CIT, MHFA or both.

Percentage of Correctional Officers with CIT & MHFA Training: 2021 Q1

Measure: Number of correctional officers with training / total correctional officers	
Definitions: Correctional Officers who have completed CIT and or MHFA	
Data Source: Sgt. Hillabrand SCSO	
Review Frequency: Quarterly	

Bar chart showing SC Corrections: CIT 43.2%, MHFA 62.2%

Analysis:
This is point in time data gathered at the end of the period of review.
Employees who are trained and employed at end of reporting period.

Next quarter do "running quarters" for comparison purposes

** This data is impacted by COVID – 19 – training is temporarily suspended

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 2: Collect and analyze Mental Health Diversion data and Mental Health Pre-Trial data in order to establish objectives/strategies.

MH Diversion Active Clients & Referrals by Month

	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021
Active Clients	32	37	37	33	39	40	41	41	41
Referrals	9	5	3	9	6	6	9	2	3

Measure:
Mental Health Diversion data organized by total number

Definitions:
Number of consumers active in mental health diversion and number of new referrals by month
Data Source:
Carisa Gosda

Review Frequency:
Quarterly

Analysis:
The number of active clients has gradually been increasing-steady for the past 4 months.

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 2: Collect and analyze Mental Health Diversion data and Mental Health Pre-Trial data in order to establish objectives.

MH Diversion Referrals by Month by Source:
Co. Attorney, Pre-Trial, Diversion, Jail Screens

|	
Measure:	Mental Health Diversion data organized by referral source.
Definitions:	Number of MH Diversion referrals by month by referral source.
Data Source:	Carisa Gosda
Review Frequency:	Quarterly

Analysis:
The yellow bar are referrals from Ashlie W (Pretrial)

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 2: By the end of April, Stepping Up Team will analyze Mental Health Diversion data and Mental Health Pre-Trial data in order to establish 2020 objectives.

Average Number of Days from Arrest to Referral
Co. Attorney, Pre-Trial, Diversion, Jail Screens

| Measure: |
| Mental Health Diversion data organized by category |

| Definitions: |
| Number of days from date of arrest to date of referral |

| Data Source: |
| Carisa Gosda |

| Review Frequency: |
| Quarterly |
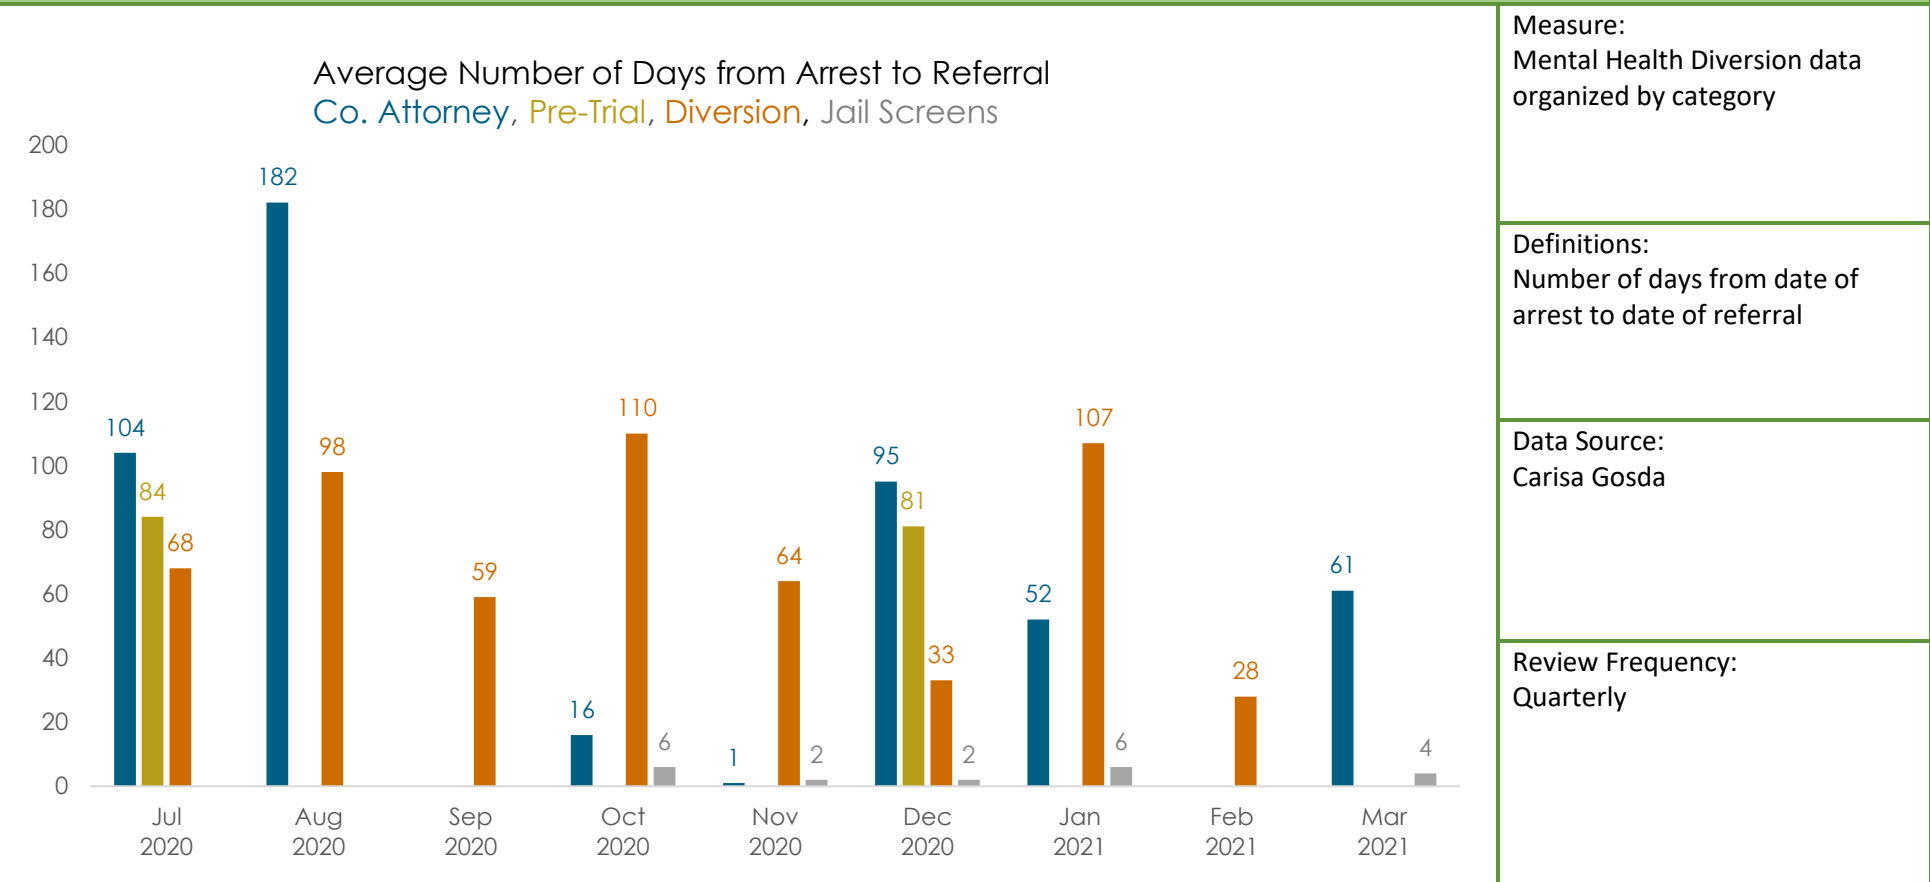

Analysis:
Oct. 2020: Started jail screenings, individuals are getting connected to MH Diversion much quicker now. If an individual in jail screens positive for a possible mental health disorder, their criminal history is reviewed and if they appear to be a good candidate for MH Diversion, Dean will go into jail and meet with the individual to obtain additional information. This is shared with the County Attorney who reviews and decides if individual is appropriate for MH Diversion.

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 2: Collect and analyze Mental Health Diversion data and Mental Health Pre-Trial data in order to establish objectives/strategies.

Mental Health Pretrial Data: The Number of Individuals
Direct Commit, Pretrial to MHCM, Assigned and Remain in Jail-Need to Post Bond,
Assigned & Released from Jail (Screened and Placed on MHCM at Bonds/Court)
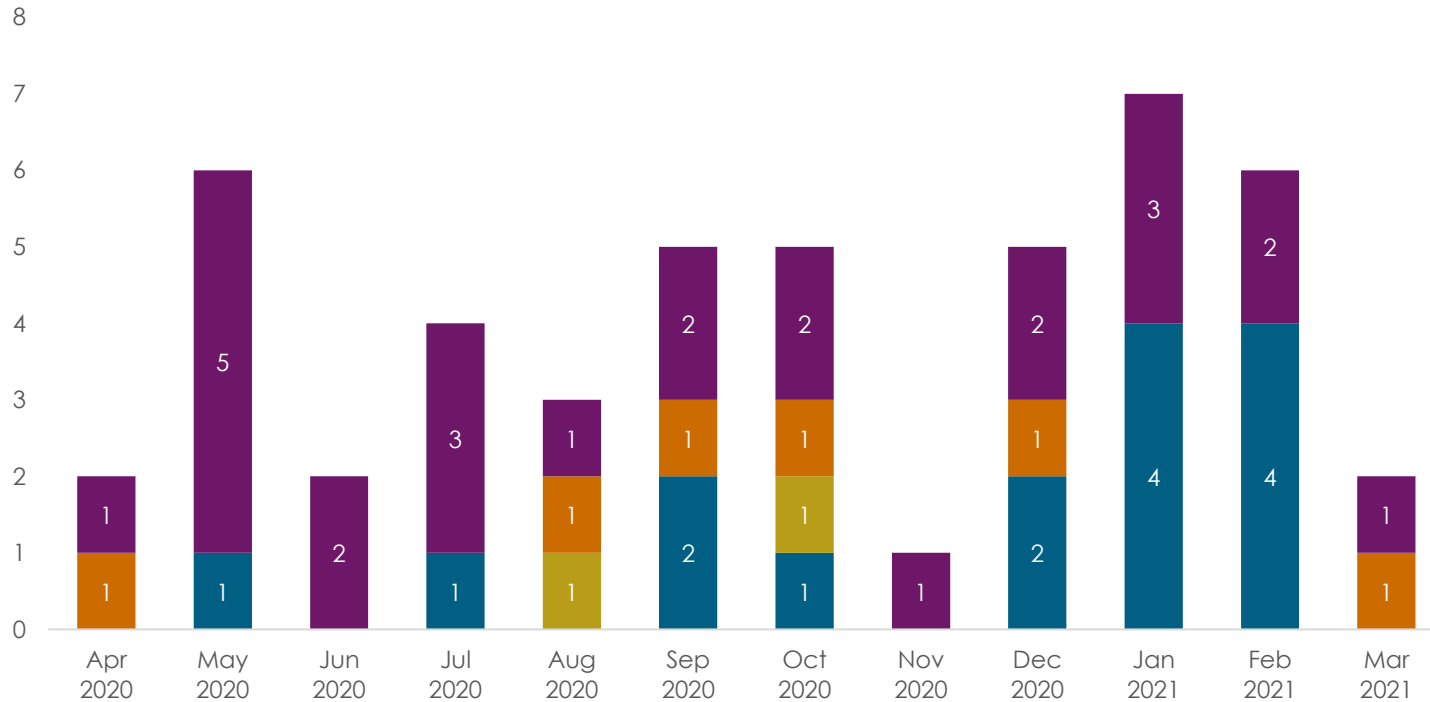

Measure: Mental Health Pretrial consumers organized by category by month.

Definitions:
Mental Health Pretrial consumers by category

Data Source:
Ashlie A. Weisbrodt

Review Frequency:
Quarterly

Analysis:

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 2: Collect and analyze Mental Health Diversion data and Mental Health Pre-Trial data in order to establish objectives/strategies.

Mental Health Pretrial Data: Active Clients Participating

Measure:
Number of active clients participating in Mental Health by month

Definitions:
Active clients participating in Mental Health Pretrial each month
Data Source:
Ashlie A. Weisbrodt

Review Frequency:
Quarterly

Analysis:
Jan. 2021: The average number of total clients participating on a monthly basis was trending down during the late spring and summer months, however, active clients participating in MH Pretrial has trended up during the fall and winter months.

GOAL 2: Shorten the Average Length of Stay for People with a Serious Mental Illness (SMI) in Jail

Objective 4: Collect baseline data on individuals in jail waiting to receive competency restorative treatment at the Lincoln Regional Center.

Average days Waiting in Jail for Competency Restoration at LRC

| Measure: |
| Total jail days for individuals waiting to receive restorative treatment at LRC, organized by year |

| Definitions: |
| The average number of days individuals wait (in jail) to receive competency restoration at LRC. |

| Data Source: |
| Jo Martin-Sarpy Co Jail |

| Review Frequency: |
| Quarterly |

Analysis:

GOAL 3: Increase the percentage of connection to care for people with a SMI in jail.   **Increase by 10%**

- **Connection to Care/Service Type 1:** Information & Referral; defined as any one of the following:
  - Verbal or written information is shared about a service or program with the client
  - Written contact information about a service or program is shared with the client
- **Connection to Care/Service Type 2:** Linking to Service; defined as any one of the following:
  - Verbal or written communication is received confirming that the client and the agency have been connected
  - Verbal or written communication is received confirming that the client has an appointment
  - The client is aware of the agency and the agency is aware of the client's need for service.

Objective 1: At least 43% of people with a SMI are connected to type 2 services prior to re-entry.

Strategy	Target	Notes/updates/completion date
a. Monitor data; identify opportunities.	2021	
b. Include data from the Practicum students (PD's Office and Jail)	Oct. 2020	

Objective 2: At least 14% of people with a SMI who are not connected to type 1 services prior to re-entry are connected to type 1 services prior to re-entry.
Page 26

a. Monitor data; identify opportunities.	2021	
a. Include data from the Practicum students (PD's Office and Jail)	Oct. 2020	

Objective 3: 100% of individuals who receive a LAI while in jail will have a scheduled appointment with an outpatient prescriber (medication management) within the required timeframe.

a. Develop a process for ensuring LAI recipients have a community-based appointment with a prescriber, prior to release.	Oct 2020	Under consideration
b. Data collection processes will be identified and data reported.	Dec. 2020	Under consideration

Objective 4: Discuss connection with BAART-individuals continuing with methadone (pregnant females) if on methadone maintenance program with BAART prior to incarceration.

a. Sarpy County Jail will determine timeframe for readiness to meet with Region 6 and BAART (Diana Meadors).		Meeting with BayMark and BAART in May 2021

**Objective 5: Explore opportunities with network providers to utilize Daily Arrest Report.**

		On Hold
Objective 6: Collect baseline data on the # and % of individuals with an SMI who were Medicaid eligible prior to jail.		
a. Practicum Student assist with identifying a strategy for data collection.	Jan. 2021	In process

GOAL 3: Increase the percentage of connection to care for people with an SMI in jail.

Objective 1: At least 43% of people with a SMI are connected to type 2 services prior to re-entry.

Percentage of Service Type Provided:
Linking to Service (Type 2) & Target
Measure:
Number of SMI individuals linked to service / total number of SMI individuals booked in the month

Definitions:
Percentage of individuals with an SMI that were linked to service(s) in the month.

Data Source:
Cameron Koenig
Lauren Jaton (student)

Review Frequency:
Quarterly

Analysis:
** 43% represents an increase of 10% above Sarpy County's baseline of Type 2 connections to care in accordance with the National Stepping Up Initiative's target goal for CY21.
** This data point is impacted by the COVID-19.

We will need to talk about this data – the change in how it is measured

GOAL 3: Increase the percentage of connection to care for people with an SMI in jail.

Objective 2: At least 14% of people with a SMI who are not connected to type 2 services prior to re-entry are connected to type 1 services prior to re-entry.

Percentage of Service Type Provided:
Information & Referral (Type 1) & Target

Measure:
Number of SMI individuals given information or a referral to a service / total number of SMI individuals booked in the month

Definitions:
Percentage of individuals with an SMI that were given information or referred to a service in the month.

Data Source:
Cameron Koenig
Taylor P.
Lauren Jaton (student)

Review Frequency:
Quarterly

Analysis:

We will need to talk about this data – the change in how it is measured

** 14% represents an increase of 10% above Sarpy County's baseline of Type 1 connections to care in accordance with the National Stepping Up Initiative's target goal for CY21. ** This data point is impacted by the COVID-19.

GOAL 3: Increase the percentage of connection to care for people with an SMI in jail.

Objective 3: 100% of individuals who receive a LAI while in jail will have a scheduled appointment with an outpatient prescriber (medication management) within the required timeframe.	

	Measure:
	Definitions:
	Data Source:
	Review Frequency:
Analysis:	

GOAL 3: Increase the percentage of connection to care for people with an SMI in jail.

Objective 4: Discuss connection with BAART-individuals continuing with methadone (pregnant females) if on methadone maintenance program with BAART prior to incarceration.	
	Measure:
	Definitions:
	Data Source:
	Review Frequency:
Analysis:	

GOAL 3: Increase the percentage of connection to care for people with an SMI in jail.

Objective 5: Explore opportunities with network providers to utilize Daily Arrest Report.	
Not sure there will be data for this objective.	Measure:
	Definitions:
	Data Source:
	Review Frequency:
Analysis:	

GOAL 3: Increase the percentage of connection to care for people with an SMI in jail.

Objective 6: Collect baseline data on the # and % of individuals with an SMI who were Medicaid eligible prior to jail

	Measure:
32 Individuals that were in jail are now receiving Medicaid (post-release). Student Lauren Jaton provided assistance with completing these Medicaid applications with the inmate while incarcerated.	Definitions:
	Data Source:
	Review Frequency:

Analysis:

GOAL 4: Lower the Rates of Recidivism for Individuals with a Serious Mental Illness (SMI) in Jail
Jo Martin Champion

Objective 1: Evaluate data from the Specialized Transition Planning (STP) aka Familiar Faces Project to determine impact on recidivism.

Strategy	Target	Notes/updates/completion date
a. Collect baseline data, develop report, share with team.		Core Team meeting to desired outcomes
a. Distribute final outcome measure document with Stepping Up Team.		

Objective 2: Explore feasibility of determining if individual was able to utilize connections to care upon previous release? Return to use/Relapse?
